Quick Readiness Check

Daily during wartime · Weekly during elevated tension · Monthly during routine. Under 2 minutes.

Two-person drill: *one person reads the CALL column aloud, the other responds. Alternate roles each time.*
Solo: *read each call aloud, then answer it yourself.*

	CALL	RESPOND
	Phone ⚠️	Charge Status? ☐ **CHARGED** or **CHARGING** HFC App? ☐ **RUNNING**, area **CORRECT**
	Alerts ⚠️	Wireless Alerts? ☐ **ENABLED** DND Override? ☐ **VERIFIED**
	Water	Emergency Supply? ☐ **ACCESSIBLE**, not **EXPIRED** *72-hour minimum*
	Shelter	Nearest Shelters? ☐ **THREE KNOWN**, routes **WALKABLE**
	Go Bag ⚠️	Position? ☐ **BY DOOR**, **ZIPPED** Contents? ☐ **VERIFIED**
	Exit	Hallway? ☐ **CLEAR** Door? ☐ **UNLOCKABLE** quickly
	Dependents	Headcount? ☐ all **PRESENT** or **ACCOUNTED** for

Memory Aids

Daytime
"Phone, dressed, keys, bag —
can I get out the door in 60 seconds?"

Nighttime
"Charged, laid out, unlocked —
can I survive a 3am siren on autopilot?"

Daytime At-Home Posture

Run after waking and repeat after any disruption. Maintain this posture throughout the day.

Two-person drill: *one person reads the CALL column aloud, the other responds. Alternate roles each time.*
Solo: *read each call aloud, then answer it yourself.*

	CALL	RESPOND
	Phone ⚠️	Phone Location? ☐ **ON PERSON** *or within arm's reach* Charge Status? ☐ **CHARGED** or **CHARGING** HFC App? ☐ **RUNNING**
	Dressed ⚠️	Clothing? ☐ **FULLY CLOTHED** Footwear? ☐ **CLOSED-TOE** shoes **ON** *not slippers, not barefoot*
	Keys ⚠️	Keys? ☐ **ON PERSON** or **BY DOOR**
	Go Bag ⚠️	Bag Position? ☐ **BY DOOR**, **ZIPPED**
	Exit Route ⚠️	Hallway? ☐ **CLEAR** Front Door? ☐ **OPENS QUICKLY**
	Browser Alert	Desktop Alert? ☐ Red Alert extension **ACTIVE** *if working at desk*

Working from home during wartime:

- Stay dressed and shoed — do not slip into pyjamas “just at the desk”
- Headphones: use one ear only, or keep volume low enough to hear a siren
- Save work frequently — you may need to abandon your desk mid-sentence
- At the start of any call: *“I’m in an active alert zone. I may need to leave abruptly.”*

Before Bed Checklist

Run every night. Everything here exists so a 3am siren is survivable on autopilot.

Two-person drill: *one person reads the CALL column aloud, the other responds. Alternate roles each time.*
Solo: *read each call aloud, then answer it yourself.*

	CALL	RESPOND
	News Check	Situation? ☐ **SCANNED** *assess if safe to sleep at home*
	Phone ⚠️	Charge Status? ☐ **CHARGING** or **CHARGED** Phone Mode? ☐ **ACTIVE**, not in airplane mode *DND/silent OK* Location Services? ☐ **ON** HFC Override? ☐ **PERMISSIONS SET**
	Clothes ⚠️	Outfit? ☐ **LAID OUT** by bed *full outfit ready in seconds*
	Footwear ⚠️	Shoes? ☐ **CLOSED-TOE** by bed *ready to step into*
	Torch	Torch? ☐ **ARM'S REACH** *on nightstand, not in go bag*
	Glasses	Glasses? ☐ **BY BED** *same spot every night*
	Keys	Keys? ☐ **ACCESSIBLE** *by bed or on hook by front door*
	Go Bag ⚠️	Bag Position? ☐ **BY DOOR** Bag Contents? ☐ **VERIFIED** Power Bank? ☐ **ON CHARGE**
	Exit Route ⚠️	Hallway? ☐ **CLEAR** *can navigate in the dark* Front Door? ☐ **NOT** double-locked
	Hearing ⚠️	Earplugs? ☐ **NONE** — ears clear *must hear siren + phone alert*
	Dependents ⚠️	Headcount? ☐ all **ACCOUNTED** for Baby? ☐ **CLOTHES** by bed, **BABYWEAR** by door

After Returning From Shelter — Reset

Run immediately after the all-clear. Restore full readiness before the next alert.

Two-person drill: *one person reads the CALL column aloud, the other responds. Alternate roles each time.*
Solo: *read each call aloud, then answer it yourself.*

	CALL	RESPOND
	Go Bag ⚠️	Bag Position? ☐ **BACK BY DOOR** Bag Sealed? ☐ **RE-ZIPPED** *did anything fall out?*
	Phone ⚠️	Charge Status? ☐ **ON CHARGE** *if battery dropped* HFC App? ☐ still **RUNNING**
	Power Bank	Power Bank? ☐ **ON CHARGE** *may have been used in shelter*
	Water	Emergency Supply? ☐ **RESUPPLIED** *if you drank from emergency stock*
	Clothes & Shoes	Position? ☐ **BACK IN POSITION** *by bed at night, on person during day*
	Torch	Torch? ☐ **BACK IN POSITION** *nightstand or go bag*
	Dependents ⚠️	Headcount? ☐ all **ACCOUNTED** for and **SAFE**

Self-Care — Do these NOW, not later. You don't know when the next alert comes.

Eaten? ☐ **YES**
stress suppresses appetite — eat anyway

Hydrated? ☐ **YES**

Toilet? ☐ **DONE**

Showered? ☐ **YES**
if time and situation allow

Groomed? ☐ **YES**
morale and normalcy matter

Rested? ☐ **YES**
when possible

Children:

Fed? ☐ **YES** Hydrated? ☐ **YES** Changed? ☐ **YES**

Cleaned? ☐ **YES**

if possible Rested? ☐ **YES**
nap if timing allows

Before Showering — Vulnerability Checklist

You are at your most vulnerable in the shower. Minimise time and maximise readiness.

Two-person drill: *one person reads the CALL column aloud, the other responds. Alternate roles each time.*
Solo: *read each call aloud, then answer it yourself.*

	CALL	RESPOND
	News Check ⚠️	Active Alerts? ☐ **NONE** *no active alerts in your area*
	Phone ⚠️	Volume? ☐ at **MAXIMUM** *must be audible over water* Phone Location? ☐ **IN BATHROOM** or just outside door
	Clothes ⚠️	Outfit? ☐ **FULL OUTFIT** in bathroom *not in another room*
	Footwear ⚠️	Shoes? ☐ **CLOSED-TOE** by bathroom door
	Towel	Towel? ☐ **WITHIN REACH** *for rapid dry-off*
	Door	Bathroom Door? ☐ **UNLOCKED**
	Keep It Short ⚠️	Time? ☐ **MINIMISED** *be quick — get in, get out*

⚠️ **If a siren sounds while showering:**

1. **Turn off water** (1 second)
2. **Grab towel** — wrap as you move (don't dry off)
3. **Step into shoes** by door
4. **Move to protected space** — clothes can wait, shelter cannot

Post this on the bathroom door or mirror. Review before every shower during wartime.

Before Leaving Home

Run every time you leave the house during wartime or escalation.

Two-person drill: *one person reads the CALL column aloud, the other responds. Alternate roles each time.*
Solo: *read each call aloud, then answer it yourself.*

	CALL	RESPOND
	Go Bag ⚠️	Bag? ☐ **TAKING** with me
	News Check ⚠️	Situation? ☐ **SCANNED** before departure *check HFC app and news for active alerts*
	Shelters ⚠️	Route Shelters? ☐ **IDENTIFIED** *at destination and along route*
	Time To Shelter	Shelter Time? ☐ **KNOWN** for destination area
	Phone ⚠️	Charge Status? ☐ **CHARGED** HFC App? ☐ **RUNNING** Location? ☐ **ON**
	Car Fuel	Fuel Level? ☐ at least **HALF** a tank
	Household Notified	Household? ☐ destination and return time **COMMUNICATED**

⚠️ **If a siren sounds while driving:**

1. **Pull over** to the side of the road
2. **Exit the vehicle** and move away from it
3. **Enter the nearest building** or lie flat on the ground
4. **Protect your head** with your hands
5. **Wait 10 minutes** before returning to your vehicle

☾ Night Alarm — The 30-Second Drill

Post this by your bed. Everything here exists so you don't have to think at 3am.

Two-person drill: *one person calls each step, the other responds with the status. Alternate roles.*
Solo: *say each step aloud as you rehearse. On the real night, your body follows the pattern.*

The First 5 Seconds

1. Siren? — Do not process. Just move. ☐ **AWAKE — MOVING**
2. Shoes? — Same spot every night. ☐ **ON FEET**
3. Glasses & Phone? — From nightstand. ☐ **IN HAND**
4. Caffeine pill? — *(optional)* Sip of water. ☐ **TAKEN**

The Next 10–20 Seconds

5. Clothes? — Pull on whatever is laid out. Speed over appearance. ☐ **ON**
6. Torch? — From nightstand if power is out. ☐ **IN HAND**
7. Protected Space? — Move to shelter or front door. ☐ **IN POSITION**

For Parents

8. Children? — One parent → child/children. Other → go bag. ☐ **ROLES EXECUTING**
9. Baby? — In babywear by door. Do not stop to dress them. ☐ **SECURED**

Do not think. Follow the procedure.
Do not check your phone. The siren means go.
It gets easier. After 2–3 nights, the routine becomes automatic.

Emergency Numbers — Israel

NUMBER	SERVICE	NOTES
100	**Israel Police**	Security incidents, unexploded ordnance
101	**Magen David Adom**	Injuries, medical emergencies
102	**Fire & Rescue**	Fires, trapped persons, structural collapse
103	**Electric Corp.**	Power outages, electrical hazards
104	**Home Front Command**	Guidelines, alerts, emergency info
110	**Police Info**	Road blocks, police information

NUMBER	SUPPORT & WELFARE
118	Welfare Ministry — Information and assistance
1201	ERAN — Emotional first aid hotline
***8840**	Senior Citizens — Ministry of Social Equality
105	Missing persons hotline
1-800-363-363	NATAL — Trauma support
03-6919765	NAAN — Youth crisis line

Personal Emergency Contacts:

Name: _____ Phone: _____
Name: _____ Phone: _____
Name: _____ Phone: _____

PRINT THIS PAGE. Post on fridge, in mamad, and in go bag. Do NOT rely on phone alone.

Shabbat / Hag — Pre-Candle-Lighting Checklist

Complete before candle-lighting. When phones are off, sirens are your only alert.

Two-person drill: *one person reads the CALL column aloud, the other responds. Alternate roles each time.*
Solo: *read each call aloud, then answer it yourself.*

	CALL	RESPOND
	TV / Channel 14 ⚠️	TV On? ☐ **PLAYING** before Shabbat TV Volume? ☐ **AUDIBLE** from bedrooms *verify not muted*
	Emergency Radio ⚠️	Radio Frequency? ☐ **VERIFIED** Radio Volume? ☐ at **MAXIMUM** Radio Power? ☐ **AC** or **BATTERIES** confirmed
	Go Bag	Bag Position? ☐ **BY DOOR** Bag Contents? ☐ **VERIFIED**
	Shabbat Supplies	Shabbat Kit? ☐ **PACKED** *siddur, kiddush cup, snacks for shelter*
	Shoes ⚠️	Footwear? ☐ **CLOSED-TOE** by bed and by door *not slippers*
	Clothes	Outfit? ☐ **LAID OUT** by bed *full outfit, not just pyjamas*
	Keys	Keys? ☐ **BY FRONT DOOR**
	Torch	Torch? ☐ **ARM'S REACH** *pre-set on nightstand*
	Windows	Windows? ☐ **SLIGHTLY OPEN** *to hear outdoor sirens*

Pikuach Nefesh

Preservation of life overrides all Shabbat prohibitions. If a siren sounds, you **may and must** use your phone, carry items, and do whatever is needed to reach shelter safely. This is not a leniency — it is **halacha**.

During Shabbat: Keep windows open for sirens · TV/radio must stay audible · Know your shelter route in the dark · Stay in shelter 10 min or until all-clear on TV/radio

News Review Schedule

Structured news monitoring prevents both under-awareness and doom-scrolling. Pick the schedule that matches your threat level.

Standard Wartime Schedule

OFFSET	REVIEW POINT	WHAT TO CHECK
Wake +0	**Morning Scan**	HFC app alerts · overnight incidents · current threat level
Wake +3h	**Mid-Morning Brief**	News headlines · any new HFC advisories · shelter status
Wake +6h	**Midday Check**	Situation development · HFC updates · any area changes
Wake +9h	**Afternoon Update**	Escalation indicators · supply situation · travel advisories
Wake +12h	**Evening Review**	Daily summary · overnight forecast · any curfew/ guidance changes
Before bed	**Sleep Assessment**	Safe to sleep at home? · alerts configured? · overnight threat level

Example for 07:00 wake: checks at 07:00, 10:00, 13:00, 16:00, 19:00, and before bed.

Extra Vigilant — Active Escalation

TRIGGER	ACTION
Every 90 minutes	Quick HFC app scan — 30 seconds. Check for new alerts or area changes.
Before leaving home	Full situation check. Active alerts? Route shelters identified?
Before shower	Are there active alerts in your area right now?
After any siren / alert	Developing situation? Follow-up strikes expected? Stay in shelter until confirmed clear.
Before bed	Extended assessment — check multiple sources. Safe to sleep? HFC app override set?
If woken at night	Quick scan before returning to sleep. New alerts? Escalation?

Healthy monitoring habits:

- **Set a timer.** Check at scheduled times, then put the phone down. Constant scrolling increases anxiety without improving safety.
- **One reliable source.** HFC app is ground truth. Cross-reference with one trusted news outlet. Ignore social media rumours.
- **Share the load.** In a household, take turns being the “news person.” Not everyone needs to watch simultaneously.
- **Night discipline.** Unless on extra-vigilant, trust your phone alerts overnight. You do not need to set an alarm to check news.

Respiratory Protection

Dust from a ballistic impact can fill any shelter in seconds. An N95 weighs almost nothing — keep one per person in your go bag.

Go Bag Minimum — N95 Masks

What	N95 respirator mask (NIOSH-rated)
Quantity	One per person, sealed in ziplock bag
Why	Ballistic impacts fill shelters with concrete dust, glass particles, and debris. An N95 filters 95% of airborne particulates. Lightweight, flat, costs almost nothing.
Brands	3M 8210, 3M 9205+, or any NIOSH N95. Avoid KN95 knock-offs without certification.
Fit	Must seal around nose and chin. Pinch the nose clip. If glasses fog, it's not sealed.
Replace	After each use, or if the bag seal is broken. Check expiry date.
Children	Child-sized N95s exist (3M 1860S or Kimberly-Clark child size). Stock separately.

Enhanced Protection — Chemical / Nuclear Threat

Israeli Civilian Gas Mask (IDF-issued)

Israel distributes civilian protective kits through Israel Post and HFC distribution points. If you have not collected yours, do so immediately during escalation.

Mask	Israeli civilian gas mask (4A1 or equivalent). Issued by HFC.
Filter	40mm NATO-thread CBRN canister (NBC filter). Comes with the kit.
Shelf life	Sealed filter: 10 years. Once opened: replace immediately. Check the date printed on the canister.
Storage	Keep in original sealed bag. Store in a cool, dry place. Accessible within 60 seconds.
Fit test	Practice putting it on: you should be able to don the mask in under 15 seconds. Do a seal check — inhale with filter blocked, mask should suck to face.
Children	Child-specific hoods and masks are distributed for ages 0–8. Practice with children so they are not frightened.
Collection	Israel Post branches or HFC emergency distribution points. Bring your Teudat Zehut.

Half-Face Respirator Alternative

If the IDF kit is unavailable, a commercial half-face respirator with appropriate filters provides meaningful protection:

Respirator	3M 6200 (medium) or 6300 (large) half-face respirator
CBRN filters	3M 60926 multi-gas/vapour P100 cartridge (OV/AG/FM/CD/HF/HS/HC/P100). Broadest protection available commercially.
Particulate only	3M 2097 P100 filters — for dust, smoke, and radiological particulate. Lighter than multi-gas cartridges.
Spare filters	Keep 2 extra sets sealed. Filters have a shelf life (5 years sealed).
Limitations	A half-face respirator does not protect eyes. For full CBRN protection, the IDF full-face mask is superior. A half-face is a backup, not a replacement.

Checklist — Respiratory Readiness

N95 in Go Bag? ☐ **ONE PER PERSON**, sealed

N95 Expiry? ☐ **NOT EXPIRED**

Gas Mask Collected? ☐ **YES**, from HFC / Israel Post

Gas Mask Accessible? ☐ within **60 SECONDS**

Filter Seal? ☐ **INTACT**, not opened

Filter Expiry? ☐ date **CHECKED**

Fit Practised? ☐ **YES**, under 15 seconds to don

Children's Masks? ☐ **SIZED** and **PRACTISED**
